Write your identification above and then circle:

- the number for this course: 1301 (US History I) 1302 (US History II)
- the letter for this Quiz: A B C D E F G H I

FYI:

- Some quizzes have fewer than 40 questions.
- Some quiz questions do not have five possible answers (a through e).
- Understand the answer. Do not memorize the answer.
When you take the quiz in class, at least 2 of the questions will have answers in a different order.

What Do You Do:

First, do not read anything before you answer. Just read the questions carefully and place a check in the column for what you think is the best answer. If you are just making your best guess, you are welcome to do something like place a question mark (?) to the left of the number.

Example: If you think the answer to Question 1 is *a*, then place a check under the column for the letter *a*.

Second, click on the temporary link at the bottom of the Unit webpage. It has the answers to the current quiz. Look at the answer for each one. If you are wrong, leave your check mark as it is because you want to be able to tell what you *thought* was true. Instead, in the column *My answer should have been*, write what the correct letter.

Example: If for Question 1 you placed a check under the column for the letter *a* but the answer was *d*, then write *d* in the column *My answer should have been*.

Place a checkmark to the left IF you graded your answers and you missed none and IF that is the reason you have no letters in the column *My answer should have been*.
