The purpose of the Incentive is to **help you persist** and **pace yourself**. The day **after** the Incentive Date below, I place either a **0** or **1** in a quiz's **Incentive** grade. **You see a 1** if you are correct on **80% or more** of the questions **by the date below** or you can always do the quiz **earlier** than the Incentive Date:

- **Either** on the **Self-Test**
- **Or**—if you did **not** get that many right on the Self-Test—on the **Full-Test**.

When you are looking at your Self-Test to see what you missed (and you **should**), count the number of possible questions. **Remember** if you have 80% or more, you do **not** have to do the Full-Test to get full points. (I enter those when the quizzes close.) **Also remember** that 80% is equal to **.8** and **you** do a little math. **Examples:**

- If there are 4 questions on a quiz, you need **.8 X 4 = 3.2**. You need at least 3 questions right.
- If there are 10 questions on a quiz, you need **.8 X 10 = 8**. You need at least 8 questions right.
- If there are 20 questions on a quiz, you need **.8 X 20 = 16**. You need at least 16 questions right.

Light blue in the Incentive Date column shows incentives entered at My Grades by **9/21/2019**. I will update the blue at the end of Units and sometimes earlier as an alert to a class.
