<sup>1</sup> Respondus-Review-1, -2, -3, -4, -5 grades? Given that the 1<sup>st</sup> 8 week had students (really **wonderful people**) taking pictures of **themselves** instead of the test environment, I have created a SHORT link that you **must use** with Unit 2 Exam and all other exams. If you do not understand any part of it, ask. People did this for years with the internal webcam. My old students figured out how!

- **General Caution:** I deduct points according to the list in the syllabus and now in the New Respondus link. If you had full 5 points on **all** prior exams and you act incorrectly on the Final Exam, I will reevaluate **all** earlier exam videos. Respondus is the right thing for **all** of us to do.

<sup>2</sup> If you only read posts in a Unit's Q & A, then 5 points is appropriate. If your posts are **brief and help others**, then your prof will add up to 10 points extra credit to your score. For brief instructions for how to work in the Unit Q & A's, see the syllabus.

<sup>3</sup> **Cumulative Total?** You can calculate your average at the end of **each** grading folder by dividing the number in **your** Blackboard Total at My Grades by the Cumulative Total for each folder (number of points you **could** have earned thus far). Reminder from the syllabus: an A = 89.5% or higher, B = 79.5% or higher, C = 69.5% or higher, D = 59.5% or higher, and F = 59.4% or lower.
