

How I Tried to Do the Grading With These Goals in Mind:

- This has been forever to get graded so something different is required.
- All need to understand what to do (including those who got the full 20 but made some lower level errors they do not want to repeat)
I wrote in the left margin R (for Requirement) and its #-like Requirement 2. You can see each of the Requirements below.
If you need it explained, I cannot do it during the test, but I can early next week. I want all of you to be OK.
- All who met most of the requirements got 20 out of 20 points.
- Those who did **3 or more** 1.11 issues got a 1.11 which means that grade is overwritten **when you change**
To see the 1.11's in the Requirements you had, use Ctrl-F with 1.11. [How to Do Your Video Form](#) is below.

Details for those with a 1.11. If you did **3 or more** of the things identified below as **< 1.11 issue**, you got a 1.11 on the 20-point form for Unit 1. What does that mean? **Caution:** You want to **save** what I returned to you. When you do another Video Form (either for Unit 2 or Unit 3) and when you follow the numbered requirements on the next 1 and make a higher grade, I will want to check that you caught onto all of the errors, but I will gladly overwrite that 1.11.

How to Do Your Video Form

Caution: These videos can be addictive. They are beautifully done, but keep a balance so you do your other assignments.

Cautions: All items required now have a number (and some also have a to c or a to e). The rubric is now specific to videos and I will be grading your videos with that rubric.

1. Required Top Line of the Visual Form < Did not grade on this. I will modify the instruction.

In 1 row across the top line, your first and last name, the words Unit # Video Form, and either the words TT 8 AM, TT 10:50 AM, MWF 11 PM, or MWF 12 PM

Click [here for an example of how the form looks](#), including the margins and the heading. Link Address:

http://www.cjbibus.com/Example_of_Visual_Form.pdf **< 1.11 issue if you did not type it. If you do not have money to print, see me.**

2. 3 Required Headings That You Cover

Tips: Black headings instead of blue are fine. Bullets are fine with the second and third headings.

- a. Exact Title of the Video`< Did not grade on this. I will modify the instruction. BUT it is a **1.11** issue if you did not write the exact name of the video.
- b. In Chronological Order, Three Facts That Are Representative of the Content in the Video `< **1.11** issue if you changed the heading or did not having one
- c. Three Facts from the Video that Every 1st Year College History Student Should Know`< **1.11** issue if you changed the heading or did not having one

Tip: You do not have to cover why if the fact is clear enough. If it is not clear enough, sometimes a representative example helps. (We discussed the words representative example in some classes; if we did not in yours, please ask.)

3. Required Citation

Use the transcript as the source for the citation and parentheses—()—to identify it. Citation for a fact always go after the fact. The transcript provides a time for all sections so you can easily communicate where your information is from.

Examples: Your sentence or bullet (03:40). Another sentence or bullet (09:50). A sentence or bullet that compares 1 place (13:40) with another (14:40). `< **1.11** issue if you did not follow these rules on any section of your form.

4. Required 5 Good Habits for Evidence with the Video Form, Not Just Formal Writing

Refresh your memory on [the 5 Good Habits for Evidence](http://www.cjbibus.com/Evidence_Quiz_4-The_5_Good_Habits_for_Evidence_and_Its_Rubric_and_How_Both_Can_Help_YouFORVideos.htm) but notice that there is one row of the rubric that is different now. Link Address: [http://www.cjbibus.com/Evidence_Quiz_4-](http://www.cjbibus.com/Evidence_Quiz_4-The_5_Good_Habits_for_Evidence_and_Its_Rubric_and_How_Both_Can_Help_YouFORVideos.htm)

The_5_Good_Habits_for_Evidence_and_Its_Rubric_and_How_Both_Can_Help_YouFORVideos.htm

Caution: Probably unlike every class where you have written before, I can **tell—and prove—easily** if you misread, assumed, plagiarized, half-copy plagiarized, embellished, cherry-picked and every other word in the rubric.

How is that so? Because I have the sources that you were supposed to use sitting right in front of me.

If you do not follow one of the Good Habits for Evidence, I will write its number in the left margin and sometimes a brief phrase. **Tip:** never try to be exciting. Be useful and true. `<**Did not grade on this because I was not directly looking at each video as I will in the future. I did write Tips to some of you on my guess about half-copy plagiarism (excessive similarity).**

5. Required Good Habits of Working

Save yourself from misery and lost points. Do these things:

1. Save your file in case you have to redo something. **Tip:** if you get the format correct in the first file, then start with the file to do the Unit 2 Video Form and later the Unit 3 Video Form.
2. **Proof your work before you submit it.** What does proof mean? Compare side by side paper and source to be sure transcript numbers and facts and names and quotations and everything is correct. **Guys, develop habits of work to match the way you want to be paid.** `< **I did not mark off, but I did mark things you should not do.**
3. Proof your appearance. If you are inexperienced with files, you may change **everything** without meaning to if you copy in information from a different file. **Example:** If you copy words from the transcript your computer may apply a different sized font and spacing. To avoid problems, when you copy text for a quotation, change it immediately to 11 point Calibri.
4. Be brief and most certainly keep any quotation very brief.

6. Required Format for the Video Form (and Also for Formal Writing Work)

Do each of these things.

a. Font	11 point Calibri font`< 1.11 issue if this is a recognizable variation
b. Length	Never more than 1 printed page `< 1.11 issue for this

c. Margins	1" on the left and .5" on the right (FYI: I need those margins when I grade.) < 1.11 issue for this
d. Spacing	Double-spaced < 1.11 issue for this
