## **How to Use This Study Tool: An Example**

This example show how to use the arrows to think about interconnections: The first use shows an • under "Navigation Acts of the 1600s..." and then an • under both the "Interests – North" and "Interests – South" because both North and South were changed by this policy.

<sup>1</sup> Mercantile regulation is also called mercantilism. Under mercantilism, taxes were not intended to provide money to the government, but to regulate trade.

<sup>&</sup>lt;sup>2</sup> This is new form of government that evolves because the new king from Germany neither spoke English nor was accustomed to English politics. The leader of the political party that won in Parliamentary elections became the leader of the executive branch. The person's title was (and still is) prime minister. He (or she in this

century) held office until his party lost the elections, and then the leader of the winning political party became the new prime minister. That is why there are so many instances in the chronology of the words "New prime minister."

- <sup>3</sup> William Pitt, the highly successful prime minister during the Seven Years War, called Grenville's view of virtual representation as "the most contemptable idea that ever entered into the head of a man."
- <sup>4</sup> The URL for this link is http://www.cjbibus.com/1739 1763 Wars for Empire.htm
- <sup>5</sup> For colony-wide dealing with the Indians, proposed by Benjamin Franklin but not approved by any colony.
- <sup>6</sup> This uses the word *boycott* for the non-importation measures taken by the colonists; however, the word *boycott* was not coined until the 1880s. *Webster's Encyclopedic Unabridged Dictionary* states: "[after Charles C. Boycott., English estate manager in Ireland, against whom nonviolent coercive tactics were used in 1880."
- <sup>7</sup> A traditional tax in England, the British did not expect a problem. The Stamp Act, however, was a shock to the colonists for several reasons. Unlike prior taxes, it was not about trade at the port. It was collected **in** the colony, a new event. It also offended many classes of people. It required a stamp (embossed in a document) as proof that the colonist had paid the appropriate tax. For example, those colonists who loved their newspapers resented the required stamp, and those with money resented a stamp to show that a tax was paid on sale of lands. Not paying that tax could result in forfeiture.
- <sup>8</sup> The plan called for the revenue to fund governors—thus making them no longer dependent on colonial legislatures.
- <sup>9</sup> Caution about the word *massacre*. It is "the act or an instance of killing a number of usually **helpless or unresisting** human beings under circumstances of **atrocity or cruelty.**" Don't assume.
- <sup>10</sup> These are the Coercive Acts (to force)
  - Boston Port Act Closed port until Boston pays
  - Quartering Act Required local payment for quarters (places to stay, food, candles) for British soldiers
  - Massachusetts Government Act –Government would not be elected by the local people, but appointed by the English government
  - Town meetings (traditional local government in New England) required the governor's consent.
- <sup>11</sup> Lord North and his Conciliatory Proposition an offer to end taxes if a colony pays the salary of own governor and for own defense
- <sup>12</sup> The Continental Congress and its Olive Branch Petition An olive branch is a symbol of trying to make peace. The George III's response, however, was that the colonists were "open and avowed enemies."
- <sup>13</sup> Jefferson is the famous author of the Declaration of Independence, but he is not alone. Also the Congress revises his draft as well. Use the primary in Lesson 4 to recognize the main parts of the Declaration—its appeal to Enlightenment principles, its criticism of George III, and—to simplify—its divorce decree from the British empire.
