

## The Collapse of Certainty and the New Deal

### The Collapse of Certainty

These problems started before Hoover's administration, but the certainty collapses between 1929 and 1933.

- [1929 to 1933](#) Republican administration of Hoover and the Great Crash and the first years of the depression.
  - Notice the categories of laborers, farmers, and veterans and the new category of the unemployed.
  - Notice government efforts to help business and later to provide relief.
  - Notice foreign policy changes.

Note: your textbook covers very well:

- Reasons for the failure of the stock market
- The crisis of liquidity of the banks and the failure of the banks and how that interconnects with the stock market
- The problem with the country's fundamentals for the rich, farmers, and business-- including the GNP and market saturation
- The conditions of workers and about the responses in the first three years of this depression

### New Deal: Problem-Driven Solutions

- Tools to help you see the crisis on a single page and to see the connection between each problem in the crisis and each policy in the New Deal:
  - [The table of problems without the New Deal Solutions](#) – Try to complete the right side of the chart on your own before you look at the answers.
